

## Wendover

The Wendover riser recliner is a contemporary chair designed with simplicity in mind. Available in small, medium and large sizes, this elegant chair accommodates the majority of dimensions to achieve a comfortable seated position that promotes good posture.

The new Plain Back, with or without Wings, and Waterfall Back options are available with the Wendover chair, tailoring its comfort level to suit individual preferences. The Wendover can also be underpinned by a choice of action depending on your functionality needs; single motor for those who prefer to maintain a seat to back angle while reclining, dual tilt-in-space for the added function of an independent legrest and backrest movement, and wallhugger action for areas where space is limited.

Eligible for VAT exemption.
